

PESTICIDE ADVERSE REACTION INCIDENT REPORT

ADMINISTERED BY CROPLIFE SOUTH AFRICA

RECORD AS MUCH DETAILS AS POSSIBLE

Record unknown details as unknown or N/A (not applicable)

NB: Reporting of pesticide adverse reactions is a regulatory requirement!

Reference number (office purposes only)					
May CropLife SA contact you for more details? (tick box)				Yes	No
Type of incident (tick box)		Dates (yyyy/mm/dd)		Personal details (reporter)	
Human poisoning		Incident		Name	
Livestock poisoning		Report		Telephone	
Pet poisoning		Locality		E-mail	
Wildlife poisoning		District		Address	
Vegetation poisoning		Town			
Environmental pollution		Farm			
Aquatic pollution		GPS coordinates			
Phytotoxicity		Person implicated (if applicable)			
Ineffective control (pest)		Name		Affiliation	
Ineffective control (disease)		Telephone		E-mail	
Ineffective control (weed)		Address			
Resistance (insecticide)		Pesticide implicated			
Resistance (herbicide)		Trade name			
Resistance (fungicide)		Registration number			
Resistance (rodenticide)		Active ingredient(s)			
Excessive residues		Formulation			
Detailed description of the adverse reaction incident (attach pictures if available)					

If an investigation was conducted, please provide details and outcomes of such investigation			
Incident management	Name	Telephone	E-mail
Agriculture official			
Health care practitioner			
Veterinarian			
Conservation official			
Police officer			
Registration holder			
Other			
SAPS Case number		Dept. Agriculture case number	
Toxicological/residue analysis performed (laboratory)			
Toxicological/residue analysis results (short overview)			
Any trials conducted (if applicable) to verify claims of ineffective control, resistance or phytotoxicity and outcomes of such trials			
Conclusions
